

PROFESSIONAL PRICE LIST – U.S. VERSION

(valid as of: November 01, 2008)

ONLINE BACKUP SERVICES:

Because of the inherent risks of onsite digital asset storage (fire, water, theft, airborne chemicals, end-of-life mechanical failure), as well as the ever-present danger of computer virus attack, we offer 24/7 password-protected online backup access to our remote-located storage servers located in a hardened facility with triple redundant OC-128 high speed access, electrical power and clean room air-filtration systems, combined with a second location backup server, to virtually eliminate the possibility of data loss.

Monthly Subscription Plans			
Product No.	Description	Cost	Account Features and Details
10000	0GB HDD	\$ 0.00	Seller Account – with 0GB User download bandwidth*
